Abstract: Cultivation and practice of college students' socialist core values is to cultivate qualified builders and successors of socialist cause with Chinese characteristics of the internal requirement, It is also the realistic need of strengthening and improving ideological and political work in colleges and universities in the new era. This paper discusses the connotation of the concept of socialist core values, cultivating and practicing the socialist core values education era significance, give full play to the cultural education, teacher education, the ideological and political theory course, the network and emerging media, social practice education, and the effective ways of colleges and universities to cultivate and practice the socialist core values etc.

1. Introduction

The report clearly put forward the 19th National Congress of the Communist Party of China, cultivating and practicing the socialist core values, to cultivate for national rejuvenation of new person on the starting point. This paper presents more explicit requirements for the basic task, the starting point and the foothold of cultivating and practicing socialist core values.

The current research of socialist core values by attention of many scholars, especially effective ways of colleges and universities to cultivate and practice the socialist core values as one of the important topics of social concern.

2. The Connotation of Socialist Core Values

The 18th National Congress of the Communist Party of China report summed up the socialist core values of the value goal, value orientation and value criterion from three aspects: the state, society and citizens.

The socialist core values are summarized in 24 words, involves three levels, one of the "prosperous, strong, democratic, civilized and harmonious" is the value goal of national level; the "freedom, equality, justice, rule of law" is the value orientation of social level; the "patriotic, dedicated, honest, friendly" is the value of citizens' personal criteria. Its connotation embodies the fundamental nature and basic features of socialist core value system, it reflects the rich connotation and the practical requirements of socialist core value system, it is highly concise and concentrated expression of the socialist core value system.

3. The Epochal Significance of Cultivating and Practicing Socialist Core Values

The proposition of Socialist core values will consolidate the guiding position of Marxism in the field of ideology, to promote the all-round development of people, to lead the overall progress of society, to achieve the Two Centenary Goals and realize the Chinese Dream of the great rejuvenation of the Chinese nation, it has the important practical significance and far-reaching historical significance.

Colleges and universities are important places to inherit and innovate advanced culture, to strengthening the education of socialist core values in colleges and universities, leading the ideological trend of college students with socialist core values, cultivating contemporary college students into qualified socialist builders and reliable successors with strong pertinence and practical significance.

3.1. Universities Shoulder the Historical Responsibility of Cultural Inheritance and Innovation

Higher education should shoulder the historic task of building advanced culture of socialist, enrichment, development and promoting the theory of socialist core values, cultural inheritance and innovation is also an important function of colleges and universities.

3.2. Colleges and Universities are the Important Position of the Education of Socialist Core Values

Higher education of our country is the socialist nature of the education career, the education of socialist core values in colleges and universities is important positions of talent training, scientific research and social service, it is also an inevitable requirement for building socialism with Chinese characteristics.

3.3. College Students are the Hope of the Nation, the Future of Our Motherland, they are the Precious Talent Resources of the Party and the State

Implementing the education of socialist core values in colleges and universities are the urgent needs of qualified builders and cultivating reliable successors of socialism. Healthy growth and overall development of contemporary college students, it concerns us to build a well-off society in an all-round way and the important task of realizing the great rejuvenation of the Chinese nation.

4. Effective Ways of Implementing Socialist Core Values Education in Colleges and Universities

Educational practice of cultivating and practicing socialist core values in colleges and university, it is aimed at a series of negative impacts brought about by the infiltration of western culture and social transition, etc. It is a solution to the crisis of value belief of college students.

On the basis of ideological and political education, colleges and universities integrate the education of socialist core values into education practice, guiding and helping college students learn to judge good and evil in social relations, make students choose and adjust their behavior correctly, make him a new citizen with socialist core values and moral qualities. The whole process of infiltration of socialist core values education into ideological and political education, we should adopt various teaching methods and means.

4.1. Give Full Play to the Important Education Function of Cultural Education

Campus cultural activities are the important carrier for college students to cultivate and practice of the socialist core values, the concept of the socialist core values into the university, with this kind of value concept to nourish the campus culture. To attach importance to the construction of campus culture in colleges and universities in the role of college students cultivate and practice the socialist core values, play various aspects strength in the overall effect of the construction of campus culture, forming the "joint force" for college students to cultivate and practice socialist core values, campus cultural activities as the core of hidden curriculum in the development of non-intelligence factors such as human emotion has a subtle role.

4.2. The Key Link of Teacher Education into Full Play

Teachers should consciously cultivate good political, ideological and moral character under the guided by socialist core values. Teachers should set up correct outlook on life and values, adhere to the Party's educational policy, achieve their career and create performance. Educators should be educated first, teachers' values are correct or not, and their abilities are high or low, it is directly related to the effect of cultivating and practicing socialist core values of college students, therefore, we should give full play to the key work of teacher education link. We should combine the cultivation and practice of socialist core values with the construction of teacher morality, promoting the education of socialist core values in the construction of teachers morality, improving the ideological, political and moral quality of the educational team in colleges and universities, make them really teach and educate people, both preach and teach others by example, influencing, educating and Infecting students with good teachers' ethics and teachers' style.

4.3. Bringing the Main Channel of Ideological and Political Theory Course into Full Play

Ideological and political theory course in colleges and universities is the main channel for cultivating and practicing socialist core values of college students, integrating cultivating and practicing socialist core values into the whole process of ideological and political theory education and teaching, the physiological and psychological characteristics, cognitive level and course characteristics of college students at different ages, taking socialist core values as the main line, overall planning, revision and improvement of ideological and political theory course in colleges and universities, make socialist core values into textbooks, enter it into the classroom, enter it into the minds of college students. Political theory course of ideological and political education has played a great role in cultivating students' outlook on life, world and education.

4.4. Bringing the Educational Function of Social Practice into Full Play

University should strengthen the practical teaching of Ideological and political theory course, the whole process of college students' social practice is joined by socialist core values. Establishing a stable base for practical activities, guiding students to go out of class, go deep into society and experience life, let students experience and feel in social practice activities and establish and firmly believe in socialist core values; organize students to visit cultural attractions, inside and outside school in a planned way, museum of history and museum of natural science, participate in social surveys, interviews, guiding students to participate in volunteer activities, let students receive education in voluntary activities, exercise ability and improve character, participation in social services, enabling students to improve their behavior accomplishment in practice. Organize students to participate in the speech contest, debate contest, knowledge contests, essay competition, case

analysis, etc. In addition, through college students' social practice activities of “going to the countryside three”, let students go deep into the grass-roots level, understand the national conditions and society, accepting education in practice and improving ideological and political quality in education, and then establish the socialist core values.

4.5. Give Full Play to Network and Emerging Media's Public Opinion Communication Works

Information network era, emerging media such as the internet have greatly changed people's way of thinking, learning style, lifestyle and communication style, it has a strong influence on the formation of people's values. Cultivation and practice of socialist core values in colleges and universities, we should give full play to the resources of network education, constantly strengthen the construction of network culture and spread positive energy, broadening the ways of education of socialist core values.

5. Conclusions

Cultivating and practicing the socialist core values, it is our party to summarize experiences and lessons of our ideological building in the new changes to adapt to the cultural domain, focusing on consolidating the guiding position of Marxism, consolidating the common ideological basis of the party of the national people's struggle. Ideological and political education, arm young students with the theoretical system of socialism with Chinese characteristics, continuously improve the Marxist theory level of college students, according to the era of changing conditions, according to the changing conditions of the times, training qualified politics and both virtue and talent Builders and reliable successors of socialist cause with reliable, it has great strategic and practical significance.
